Dear Friends

We're delighted to welcome you to AMASI WEST Zone Chapter's Live Workshop with Safe Lap Chole program. You're about to embark on an exciting journey in Minimally Invasive Surgery (MAS) that will enhance your surgical expertise and contribute to better patient outcomes.

Your commitment to advancing your surgical skills is commendable, and we're here to support your growth through our comprehensive monthly training sessions. You'll engage in interactive discussions, and learn from experienced practitioners in an intimate learning environment.

We've carefully designed this program to provide you with practical, real-world skills through:

- Interactive live demonstrations
- Video-based technique discussion
